Personal Profile

I am a first-year Biosciences student at the University of Liverpool with an interest in biology and how living organisms function. Through my studies, I am developing practical laboratory skills, an understanding of core biological concepts, and skills in analysing and presenting scientific information. I am a reliable and hardworking individual with experience working in a busy cinema environment, where I have developed my communication, teamwork and customer service skills. I am keen to gain further work experience and develop skills that will be useful in my future career.

Education

University of Liverpool | BSc Biosciences | September 2026 - present

Currently in my first year. Modules include Practical Laboratory and Quantitative Skills, Core Concepts in Biology, and Study and Communication Skills.

Oakfield Sixth Form College, Warrington | 2024 - 2026

A levels: Biology (B), Geography (B), Chemistry (C).

Oakfield High School, Warrington | 2019 - 2024

GCSEs: Biology (7), Chemistry (6), Physics (6), Mathematics (6), English Language (6), English Literature (5), Geography (7), History (5), French (5).

Employment History

Westbrook Cinema, Warrington | Part-time | June 2024 - present

Usher | January 2026 - present

- Check tickets, show customers to their screens and answer general questions.
- Clean and prepare screens between films and help keep public areas tidy.
- Help customers with seating issues and report any problems to the duty manager.

Confectionery Assistant | June 2024 - December 2025

- Served drinks, popcorn and snacks at busy times, including weekends and evenings.
- Used the till, handled cash and card payments and restocked products.
- Followed basic food hygiene procedures and helped close the counter at the end of shifts.

Work Experience and Volunteering

Willowbank Animal Rescue Centre, Cheshire | Work experience placement | July 2025

Completed a one-week placement arranged through sixth form. Helped prepare food, clean small-animal enclosures and organise donated supplies. I also observed staff carrying out routine animal care and learned about the importance of following instructions and hygiene procedures.

Friends of Sankey Valley Park | Volunteer | March - May 2025

Attended three weekend litter-picking and habitat maintenance sessions with a local community group. Worked with other volunteers to collect litter and clear pathways.

Skills

- **Communication:** Confident speaking to customers and asking colleagues for advice when needed.
- **Teamwork:** Used to working with different colleagues at the cinema, especially during busy shifts.
- **Organisation:** Balance university work with a part-time job and meet deadlines for coursework.
- **IT:** Familiar with Microsoft Word, PowerPoint, Excel and using online learning systems.
- **Practical skills:** Some experience of basic laboratory equipment, recording results and following written procedures.

Interests and Hobbies

I enjoy visiting zoos and wildlife parks and learning about different animal species. I also like going for walks in the countryside and taking photographs of birds and other wildlife. At university, I hope to join the wildlife society. In my spare time I enjoy reading, swimming and going to the cinema with friends.

Additional Information

Available for part-time and weekend work during term time, and more hours during university holidays.
